Checklist: Assessment 2, Experimental Report

Your question and report

- [ ] Answer **one** of the research questions in the assessment brief.
- [ ] Write for an academic audience.
- [ ] Use the report sections and headings specified in the brief.
- [ ] State your question.
- [ ] Explain why your question matters.
- [ ] Summarise your findings in the introduction.
- [ ] Explain what relevant academic research tells us about the question.
- [ ] Develop your own hypothesis or hypotheses using academic research.
- [ ] Explain what you expect to find and why.

Your data and results

- [ ] Describe the experimental design.
- [ ] Describe the participants.
- [ ] Describe the treatment and control conditions.
- [ ] Describe the outcome.
- [ ] Explain how the outcome was measured.
- [ ] Explain how you analysed the data.
- [ ] Use R to compare treatment and control outcomes.
- [ ] Estimate the treatment effect using a simple regression with `lm()`.
- [ ] Include **at least one table or figure** presenting your results.
- [ ] Give each table or figure a clear title.
- [ ] Give each table or figure clear labels.
- [ ] Include a data source for each table or figure.
- [ ] Insert the finished table or figure into your report.
- [ ] Do not use screenshots of RStudio or copy results from other publications.
- [ ] Interpret the size of the treatment effect.
- [ ] Interpret the direction of the treatment effect.
- [ ] Interpret the confidence interval.
- [ ] Interpret the p-value.
- [ ] Relate your findings to your hypothesis or hypotheses.
- [ ] Answer the research question.
- [ ] Explain what your findings mean for politics.
- [ ] Discuss the study's limitations.
- [ ] Discuss possible avenues of future research.

Sources and references

- [ ] Cite **at least five** relevant academic journal articles or academic books.
- [ ] Use academic research to explain your question.
- [ ] Use academic research to interpret your findings.
- [ ] Use Harvard format for your in-text citations.
- [ ] Include every source you cite in a reference list at the end of your report.
- [ ] Use Harvard format for the reference list.

Before you submit

- [ ] Check your report is **2,000 words ± 10%**, excluding the reference list.
- [ ] Include your word count.
- [ ] Put your student ID in your work.
- [ ] Do not include your name.
- [ ] Do not submit your data.
- [ ] Save your work as **one PDF**.
- [ ] Use your student ID as the filename.
- [ ] Use your student ID as the submission title.
- [ ] Upload your PDF to Canvas.
